Foundries of the Past and Present

Griswold, Wapak, Favorite Ware, Wagner Ware, Wapak are some of the more recognized foundries for cast iron and aluminum cookware. There are however, many, MANY others that made cast iron and aluminum products. This link will be for those cast iron foundries in the USA and Canada. Some of these companies may not be actual foundries but may have just had their name put on pieces by another foundry. If we have more info for the foundries below, there will be a **HYPERLINK** attached to it, so just click on it for more information, pictures, etc. If you have information, have a differing view point or anything you'd like to contribute to this archive, just let me know. You can email [Greg](#). Thanks for your support.

CAST IRON COOKWARE COMPANIES

Please help us fill in the blanks, make corrections, etc. We'd also like to include what types of pieces were made by each company. WAGS retain all rights to this list, information and data contained within the context of this list.
